WebFX

How to find a Website Designer Checklist

1. Budget

- [ ] They can build a website within my budget
- [ ] They offer custom packages to fit my design/website needs
- [ ] Their payment schedule works for my business (hourly, per project)

3. Company Experience

- [ ] They have a design portfolio of their work
- [ ] They have worked in my industry or a similar one to mine
- [ ] They have proven results
- [ ] They have glowing reviews about their design work
- [ ] They have a well-designed website

2. Package features (check off all that apply)

- [ ] Responsive design
- [ ] Custom design
- [ ] Website copy
- [ ] Database integration
- [ ] Search engine optimization (SEO)
- [ ] Ecommerce functionality (if needed)
- [ ] ADA Compliance (if needed)

4. Team Dynamics

- [ ] They provide a point of contact
- [ ] They share how they communicate with clients (phone, email, etc.)
- [ ] They have enough team members to handle my design
- [ ] They do the work in-house and don't outsource to a third-party company

5. Additional Offerings

- [ ] They offer additional services to support my newly designed website (SEO, Conversion rate optimization (CRO), etc.)
- [ ] They offer website maintenance to maintain my new website
